

**(Occupied)
Title Screen**

Title Screen

Schedule Screen

Takeover Screen

Available

The Title Screen and Schedule Screen are two pages in a PageView. The buttons at the top transition between screens, or the pages may be swiped to transition.

Checkin

Interaction with the Checkin Button transitions to the Occupied Screen. Examples of the animation are displayed to the right.

Schedule Screen

Takeover

After 30 seconds of no input, reverts back to the initial 'slide to checkin' page.

Schedule Screen

Switch Animation

In the Animation Option 1, Displays are statically connected and move with one another. At about 80% the button keeps on sliding, and then Occupied stays in the view while the Switch Button slides away, under the circular edge, and away

Slider Animation Ending Variant A

Variant A: The inertia of the Slider Button when it reaches the end carries it forward, off the edge of the paper, while occupied slides in to take its place.

Slider Animation

Animation Option 2 has two potential endings. First, the Slider Button swipes over the text erasing it.

Slider Animation Ending Variant B

Variant B: Once the button reaches the end, it quickly fades displaying the Occupied Text underneath.
